Perfectly perched on the hill overlooking Confederation Park, this exquisite custom crafted residence offers a level of detail, design, and presence that is rarely seen. This is not a home that was built to follow trends. Every element was thoughtfully selected and masterfully executed to create something truly timeless and unique. From the moment you arrive, the charm is undeniable. The inviting front porch, stone detailing, solid wood door, elegant hardware, and even the mailbox set the tone for what awaits inside. Step through the entrance and take a moment to appreciate the craftsmanship. To your right, the breathtaking two storey library draws you in, complete with a fireplace that invites quiet mornings spent with a favourite book. Follow the stunning hardwood floors into the main living area where expansive windows perfectly frame uninterrupted park views. The dining room, anchored by beautiful built-ins, is ready to host memorable gatherings, while the living room showcases another striking fireplace. Step out to the covered deck with remote screen and experience seamless indoor and outdoor living. The kitchen is a true showpiece, designed for both the passionate chef and effortless entertaining. Just beyond, a remarkable pantry offers exceptional storage and functionality. The primary suite is every bit as impressive as expected. Wake to views of the park and enjoy direct access to the screened deck. The dressing room is extraordinary, while the ensuite features a grand shower, clawfoot tub, and a charming vanity area complete with antique mirror and seating. Laundry is discreetly positioned off the ensuite for added convenience. The second level continues to impress. The upper library, connected by a striking iron staircase, is a defining architectural feature. A spacious games room with pool table, a private office with fireplace, and a vaulted gym create a dynamic

and versatile upper floor. An additional bedroom with its own ensuite, steam shower, and balcony completes this level. The walkout lower level is warm and inviting with large windows, a wood burning fireplace, and in floor heat. The custom bar is beautifully equipped with an ice maker, wine fridge, beverage fridge, and filtered water. A third bedroom with its own ensuite ensures comfort for guests. Even the mechanical room reflects the same level of care and pride found throughout the home. A wonderful surprise awaits outside with a separate self contained living area offering a full kitchen, dining space, living room with fireplace, bedroom, bathroom, and its own laundry. The beautifully landscaped backyard is the perfect finishing touch. The heated and insulated garage features extensive cabinetry and epoxy flooring, along with an additional parking space for added flexibility. Designed by John Haddon with interior design by Rod MacDonald, this is a home that must be experienced to be fully appreciated.
